c. Office Of Data Processing (ODP) Request for Proposal (RFP): On 23 January 1984, RFP 84B-236, entitled System Development/Enhancement, was issued to 16 prospective offerors. This requirement includes a collection of non-related computer applications which support Computer Applications Systems Life Cycle activities in the Office of Data Processing, Systems Development Division (ODP/SDD). Intentions to bid are due on 10 February 1984. To date only one vendor (American Management Systems, Inc.) has declined to bid.

d. Meeting Between XEROX And Automatic Data Processing and Engineering Branch (ADP&EB/PD/OL): On 31 January 1984, Agency and Xerox Corporation representatives met to discuss the Government's application of the contract provision entitled "Rights in Technical Data and Computer Software" to the "Analyst" software developed under various Agency Contracts. In the course of this meeting, Xerox stated that the deliverables in question included Restricted Rights legends pursuant to the reference provision. However, on the basis of a Contract Officer query of Contracting Officer's Technical Representative (COTR's) prior to this meeting, such was determined not to be the case. ADP&E/PD/OL has again queried all concerned representatives and, until this question of fact is resolved, Agency employees passing this data to third parties have been advised they must obtain nondisclosure agreements. A second issue discussed during the negotiations is the Agency equity versus Xerox equity in the "Analyst." These negotiations are expected to culminate in an agreement by the end of February.
